#### (54) Title: A METHOD OF LABELLING AN IMAGE ON A DISPLAY

E

(57) Abstract: A method of labelling an image for display on a screen is disclosed together with a computer program, a computer-readable storage medium and apparatus for the same. The method comprises the steps of retrieving the image, displaying the image rotated, and displaying first and second text labels on the image wherein each label identifies a part or feature of the image, and wherein the first text label is displayed in accordance with one labelling scheme, and the second text label is displayed in accordance with a different labelling scheme. Also disclosed is a method of labelling in which a text label is displayed on a rotated image wherein the label is rotated to one of a plurality of possible orientations relative to the rotated image.
